Welcome to **XLSIOR MYKONOS 2025.**

Each summer, Mykonos becomes more than just a place—it becomes a feeling. A rhythm. A heartbeat we share.

Here, under the sun and stars, we meet as strangers and leave as something more—connected by music, freedom, and the magic of the moment!

XLSIOR is not just a festival. It's a dream we get to live together. Whether you're returning to relive the spark or discovering it for the first time, know that you are part of something rare and beautiful.

Let this be a summer of bold memories, open hearts, and wild joy.

With all my love,

Anastasio

MYKONOS

is one of the most legendary destinations worldwide, attracting thousands of tourists every year and especially during the summer. It's a fact that the island is best known for its gay identity and gay nightlife. To be more specific, Mykonos today is considered a gay paradise, with many things to do and unique experiences to go through.

ELIA BEACH

Elia Beach, renowned and cherished, presents a remarkable harmony. With its plush, luxurious sun loungers and chic umbrellas, it strikes a unique balance. Amidst the bustle of activity, it still manages to radiate a serene aura of relaxation.

It's the preferred choice for those yearning to savor a swim in peace, shielded from external disturbances and distractions.

Here, notable personalities often seek refuge from the public eye; here, you'll discover a shoreline that beckons you back, time and time again. Elia Beach is more than a location—it's a sanctuary that captures your heart, inviting countless returns.

MUST SEE BEACHES

Mykonos is synonymous with beaches and parties. At Paradise Beach, you can get your fill of both. During the day, you can chill by the beach or spend time on water activities such as banana boat rides and jet ski jaunts. Several scuba diving excursions and beach-hopping tours also set off from here.

Come late afternoon, the buzzing party atmosphere kicks in as bars and clubs welcome party lovers until sunrise. If you plan to come by car, it's about a 20-minute drive from Mykonos town. For a unique experience, ride a water taxi from Platis Gialos beach to get here.

PARADISE BEACH

AGRARI BEACH

Agrari in Mykonos and Elia are located near each other, forming a long beach, 8 kilometers away from the island's capital. Agrari beach is much calmer than its neighbor, even though popular among locals and tourists. Its waters are clear and relatively deep, while the shore is mainly sandy with a few small pebbles here and there. The beach is rarely affected by the northern winds due to its location and shape.

Agrari is divided into two parts; one side boasts sunbeds and umbrellas, while the other is pristine with sand only. Since it is a large beach and provides enough room for everyone, it is considered nudist-friendly.

IN MYKONOS

Fokos in Mykonos is located on the northern side of Mykonos island. Due to its extended distance from the developed and buzzy southern beaches, Fokos is secluded and very calm, even in high season. The shore is sandy and wide, but the sea can be choppy since affected by the winds.

The sandy beach of Fokos has no tourist facilities, like umbrellas and sunbeds. There is only one tavern in the region, which is traditional and serves delicious dishes. A part of Fokos has turned into a nudist beach. Fokos can only be reached via private means after a turn in Ano Mera.

FOKOS BEACH

Take your time at Chora (Mykonos' capital) to shop at the traditional stores and buy luxurious gifts to your loved ones back at home. Under the sunlight and the sunset of Mykonos that is praised in many artworks, you can find yourself walking in the cobbled streets of Chora and have a chat with friendly local people ready to reveal the secrets of the island to you. At Chora you can also visit amazing galleries, art shops, museums, and precious buildings that mean so much to the history of the island.
